NERAL SPORTING NEWS OF THE DAY

(SPECIAL TELEGRAN TO THE DISPATCH.) CLEVELAND, Oct. 18 .- Over 7,000 spec ors went away from the ball grounds s atternoos with grief gnawing at their urts. TRACK RECORDS AND TALK.

Exciting Races at Washington and Some / Local Records Are Broken. WASHINGTON, Oct. 18 .- The second day of the Washington Jockey Club's meeting was a great success. The promise of an excel-lent day's sport brought a very large crowd to the track, and as four out of five favorites carried off the purses everyone was well satisfied. The races were the best that have

been run on this track.

The finishes were close and exciting, and in the mile and a mile and a sixteenth races the track records were broken, the first name distance being covered in 1:42 and the latter in 1:49%. The bookmakers placed good odds against the entries and the betting was brisk and heavy. The track though still dusty was heavy. The track though still dusty was better than yesterday. The weather was all that could be desired. Walcott was a prime favorite for the opening dash, and won as he pleased. Osric, though conceding ten pounds to every horse in the six and a half furlong dash, was looked upon to win and crossed the line ahead by a half length. Cottonade got away last, but ran a game race, finishing second by three lengths. Gloauring, at 3 to 1, carried a great deal of money for the mile, and was never headed. Middleton only managed to secure the 2-year-old race by a nose from Marshall. Carlshad, at 3 to 5, took the last race easily. Summaries:

EUROPE'S SENSATION

Austrian Officials Bag a Big Gang of Kidnapers Who

SUPPLIED SLAVES FOR HAREMS.

Tales of the Escaped to Be Retold at the Trials of the Accused.

BAD WATER THE CAUSEOF CHOLERA'

VIENNA, Oct. 18 -- Much has been said and written regarding the sale of girls to the harems of the East, but it has not been generally believed that any such custom obtained in Europe. Considerable of a sensation has been caused by the discovery that there has existed for a long time in Austrian Galicia a regularly organized gang of kidnapers who have made it their business to supply the demand for girls for the harems of wealthy Turks in Constantinople.

This gang, composed of men and women, were making large sums of money through their traffic in young girls. They would visit the various towns in Galicia and make the acquaintance of the prettiest and most shapely young girls. Then they would hold out to them in glowing colors the money and fine clothes to be had, the lives of leisure to be led if they would go to Constantinople, where rich men were awaiting a chance to marry them. How many of the girls fell into the trap will probably never e known, but it is certain that the number is large, for since the workings of the gang have become known 60 of the victims been released from various harems in Con-stantinople through the efforts of the Aus-

trian Embassy there.
In some cases where the girls were particularly attractive and refused to listen to the proposals made to them the gang did not hesitate to forcibly abduct them. Then they would be drugged and when they gained full possession of their senses they found themselves immured within harem walls, doomed to a fate worse than death. Their lauguage was not understood and their appeals for release fell on deaf ears. Some of the stories told by the released

girls regarding their treatment by their masters are horrible.

As soon as the facts became known to the authorities they began to search for the members of the gang and before long they had 27 persons in custody. They are now awaiting trial at Lemberg, the capital of Austrian Galicis, and it is expected that many of their victims will testify against them.

FRENCH LABOR TROUBLES.

Arbitrators Appointed to Act on the Claim of the Miners.

PARIS, Oct. 18.-The Chamber of Deputties opened to-day after the recess. Nearly all the members were present, as it was expected that an attempt would be made to overthrow the Government on the question of the labor troubles at Carmaux. All the members of the Ministry were present. The public galleries were crowded. M. Dupuy Du Temps, Socialist, submitted an interpellation regarding the position of the Government in regard to the situation at

Carmaux.

A protracted debate on the interpellation followed, which was finally brought to an end by Baron Reille, Chairman of the Carmaux Mining Company, declaring that the company was willing to arbitrate the questions at issue between itself and the minera. The Chamber appointed M. Loubet, the Prime Minister, and M. Viette, Minister of Public Works, as arbitrators. M. Baudin agreed to act as arbitrator in behalf of the miners.

A HORSE THIEF BROUGHT TO BAY Crushes the Skull of a Farmer's Son, In-

jures the Father and Escapes. SUNBURY, Oct. 18 .- Farmer Louis Boyer and his son, Emery, had a struggle with a horse thief in their barn at Point township

yesterday morning. They found a stranger about to steal a valuable horse. Boyer and his son attempted to stop him.

The thief seized a heavy piece of iron, and after crushing the boy's skull in and injuring the father, escaped. A posse of farmers has scoured the mcuntains, but have thus far failed to capture the fugitive. Young Boyer died within half an hour.

The Size of the Earth. To us who live upon it the earth seems to

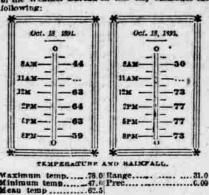

be a very large affair, and men have been found who would be content to own as little as a tenth of it. In comparison with some other bodies, however, it is small almost to the point of insignificance. Five bundred earths like our own placed side by side could be easily encircled by the outermost ring of Saturn; and if by any process we could hollow out the sup, it would require 300,000 globes like our own to fill the space thus created.

BAPTISTS IN ANNUAL MEETING.

teports Showing the Growth of the Church Society in the State.

FRANKLIN, PA., Oct. 18 .- [Special.]-The Pennsylvania Baptist anniversaries are being held here this week. There are 400 delegates here to-night and 100 more are due to-morrow. This morning's meeting was devoted to the Baptist Ministers' Union, and each day will be given to different departments of church work. After devotional exercises Hon. Charles Miller, President of the society, made an address in which he warmly extelled the members for their earnest work for the church, and especially for the young people. "If we only had the earnestness of the workers in

only had the earnestness of the workers in either of the great political parties," said Mr. Miller, "we could soon raise the money needed to carry out our plans."

After the report of the Board of Managers was read and accepted, Rev. Hanna took the pulpit and told what an immense good work the society had done in the State. "It has furnished 57 new preachers and has filled 57 pulpits, and through its efforts 11,000 sermons have been delivered during the past year." during the past year."

GOING DOWN THE HILL

Old Age Creeping on Shows Itself in Lack-Lustre Eyes and Trembling Hands-Many Who Are Old in Years are Vigorous and Healthy-How Such a Condition may be Encompassed by All.

How many elderly men and women we see who plainly show they are "going down the step, the lack of brightness in the eye, the shranken features, all indicate that life is not at high tide, that the strength and vital forces are not what they once were, and in fact, that they are going down the hill. This, reaches later years, physical troubles are sure to come, but how many elderly people we see are healthy, happy and comparative ly vigorous. They always seem cheerful, bright, contented. Why should not all be bright, contented. Why should not all be equally fortunate? It certainly is possible. Every elderly man and woman needs to gently assist nature, all the while needs to iake some pure stimulant regularly. Every doctor in the land admits this, and its common sense must be manifest to all. It should not be understood, however, that any ordinary stimulant would be recommended. It must be something pure, powerful, healthgiving and strength-imparting. Such a stimilant can be found only in Duffy's Pure Mait Whiskey. It is the only medicinal whiskey in the market. Its wonderful popularity is due entirely to its power and what it has accomplished. Any elderly man or woman through its use may certainly preserve the health, and may reasonably expect to prolong the life. Do not be induced, however, to try any inferior article or any which the druggist or grocer may seek to put in its place. There is nothing which can accomplish the same object.

NEW ADVERTISEMENTS.

Mme. M. Ya'e, the celebrated beauty and complexion specialist, said in one of her famous lectures on "Beauty and the Complexion:" Young ladies, remember a pretty face will win for you love, and love will win for you a husband. Married ladies, remember with the decline of your husband's love will grow cold. Youth and beauty your husband's love will grow cold. Youth and beauty is woman's power. Be on your guard against wrinkies, old age and ugliness; they have broken up many happy homes."
